

WEST BEND SCHOOL DISTRICT 4K PROGRAM

Play-Based
Learning

Wraparound
Care

Nature-Based
Programming

The West Bend School District, in partnership with local community organizations, is proud to offer 4K programming at six locations across West Bend, Jackson, and Newburg

Our program features a play-based learning model that fosters children's natural curiosity through hands-on activities designed to promote exploration, problem-solving, and meaningful engagement. In addition, all locations incorporate nature-inspired learning, with two sites offering nature-based programming where students spend half of their time outdoors participating in structured lessons that encourage curiosity and discovery.

To support busy families, most sites provide wraparound care options, allowing children to remain at their assigned location if additional care is needed.

The 4K program is available at no cost for families residing within the West Bend School District attendance area. Families living outside the district are also welcome to apply through the Parental Choice (open enrollment) program to access this exceptional program.

We look forward to partnering with you to create a nurturing, engaging, and enriching early learning experience for your child.
